

Group name: Technirab			Week														
Task	Assigned person	Duration (Weeks)	6/10-10/10	13/10-17/10	20/10-24/10	27/10-31/10	3/11-7/11	10/11-14/11	17/11-21/11	1/12-5/12	8/12-12/12	15/12-19/12	22/12-26/12	29/12-2/1	5/1-9/1	12/1-16/1	15/1-19/1
Proposal Phase																	
Group meeting	ALL	1															
Project planning	ALL	1															
Research Phase																	
Introduction	WOO	1															
Existing system	CHAU	1															
Proposed system	LAU	1															
Software process model	CHERYL	1															
Project schedule	NEO	1															
Create project proposal document	ALL	1															
Analysis Phase																	
Introduction	CHERYL	1															
Overall description	LAU	1															
External interface requirements	NEO	1															
System requirements	CHAU	1															
Other non-functional requirements	WOO	1															
Create SRS document	ALL	1															
Design Phase																	
Design use case diagram	ALL	1															
Use case description																	
Apply membership	LAU	1															
View membership application status	LAU	1															
View financial status	CHERYL	1															
Apply for loan	CHAU	1															
View loan application status	CHAU	1															
Manage profile	CHERYL	1															
Terminate the membership	CHERYL	1															
Approve membership registration	WOO	1															
Approve loan application	WOO	1															
Approve terminate membership registration	NEO	1															
Generate reports	NEO	1															
Design activity diagram		1															
Apply membership	LAU	1															
View membership application status	LAU	1															
View financial status	CHERYL	1															
Apply for loan	CHAU	1															
View loan application status	CHAU	1															
Manage profile	CHERYL	1															
Terminate the membership	CHERYL	1															
Approve membership registration	WOO	1															
Approve loan application	WOO	1															
Approve terminate membership registration	NEO	1															
Generate reports	NEO	1															
Design sequence diagram		1															
Apply membership	LAU	1															
View membership application status	LAU	1															
View financial status	CHERYL	1															
Apply for loan	CHAU	1															
View loan application status	CHAU	1															
Manage profile	CHERYL	1															
Terminate the membership	CHERYL	1															
Approve membership registration	WOO	1															
Approve loan application	WOO	1															
Approve terminate membership registration	NEO	1															
Generate reports	NEO	1															
Create UML class diagram	ALL	1															
Software design document (SDD) planning	ALL	1															
Create SDD document	ALL	1															
Design system architecture	LAU,CHERYL	1															
Design presentation layer	NEO	1															
Design application layer	WOO,CHAU	1															
Development Phase																	
Coding phase																	
Apply membership	LAU	3															
View membership application status	LAU	3															
View financial status	CHERYL	3															
Apply for loan	CHAU	3															
View loan application status	CHAU	3															
Manage profile	CHERYL	3															
Terminate the membership	CHERYL	3															
Approve membership registration	WOO	3															
Approve loan application	WOO	3															
Approve terminate membership registration	NEO	3															
Generate reports	NEO	3															
User interface development																	
Apply membership	LAU	3															
View membership application status	LAU	3															
View financial status	CHERYL	3															
Apply for loan	CHAU	3															
View loan application status	CHAU	3															
Manage profile	CHERYL	3															
Terminate the membership	CHERYL	3															
Approve membership registration	WOO	3															
Approve loan application	WOO	3															
Approve terminate membership registration	NEO	3															
Generate reports	NEO	3															
Documenting the results	ALL	3															
Software test description (STD) planning	ALL	3															
Create STD document	ALL	3															
Testing phase																	
Unit testing	CHERYL	2															
Integration testing	CHAU	2															
System testing	NEO	2															
Regression testing	WOO	2															
User acceptance testing (UAT)	LAU	2															
Implementation																	
Project presentation	ALL	1
